BIG DATA & DATA SCIENCE

07

Data is the new Asset.
Data is new Gold.
Data is new Oil.

There are various ways to say that **Data is new wealth** of today and tomorrow. It can give you a priceless insight into the minds of your customers and it has the power to transform your business from the inside too. But to unleash its full potential you have to know how to **collect it, store it, segment it and utilize it**.

And that's exactly what our big data experts and data scientists can do for you.

Xpedients uses different open source data science libraries and machine learning approaches we are able to discover hidden patterns in your data and help you become a data-driven organization.

CLOUD COMPUTING

08

Xpedients has cloud computing experts. We can help your company **maximize the benefits** and **minimize the risks** of moving your business to the cloud.

Cost reduction, scalability flexibility, easy access, automated updates – these are just a few of the advantages of choosing cloud solutions. We'll be happy to advise you on the most suitable cloud services provider and assist you in implementing and maintaining your chosen services package.

You can count on us to aid you in delivering high-performing bulletproof cloud-based applications. You can cooperate with our experienced software developers and DevOps engineers acting as your team extension or commission a custom product.
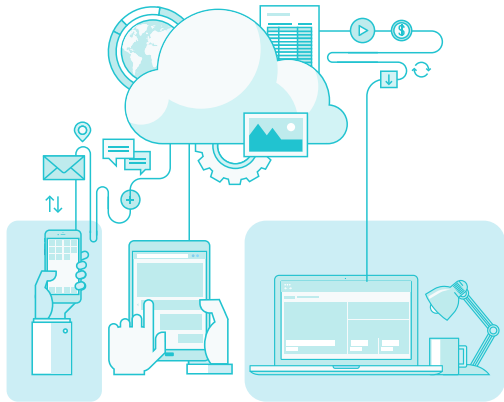

RESEARCH & DEVELOPMENT

09

ARE YOU...

Searching for some fresh product?
Looking for some new ideas?
Want to investigate business opportunities?

To stay ahead of the game modern companies have to constantly be on the lookout for new ways to expand their offerings to better answer the needs of their clients.

Xpedients experts can provide you with bespoke research and analysis product development strategies or even support you in designing and developing your Minimum Viable Product (MVP) from start to finish.

RESEARCH & DEVELOPMENT
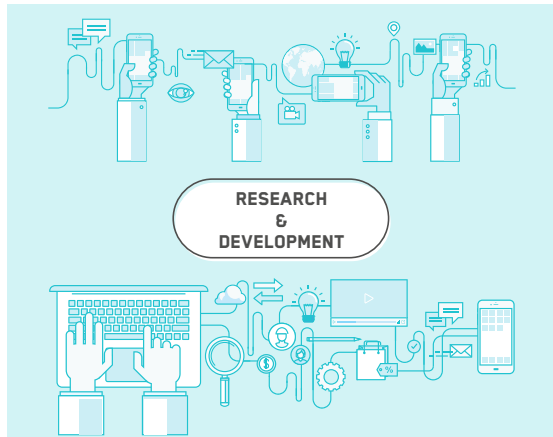

OFFSHORE DELIVERY CENTRE

10

Our pool of talent is capable to **reduce your delivery cost**. We work as offshore delivery centre for number of clients from all over the world.

Our Offshore Delivery Centre (ODC) offers you a dedicated and **experienced team** of Developers, QA-Testers & Support Engineers. Our ODC team works directly with clients as per their business requirements. Our professionals are qualified, certified, innovative and genuinely experienced.

As an organisation we maintain complete confidentiality. We **abide by data protection laws**. Single window service for complete product life cycle increases efficiency too.

However the biggest advantage of hiring an Offshore Delivery Centre is cost saving. At the almost **50% lower cost** you can get an efficient team for your service delivery. While maintaining high quality standards in services you get additional savings on your operational expenses.
